Message

Director-General of the Department of Social Development and Welfare

This 2009 Annual Report was prepared by the Department of Social Development and Welfare, Ministry of Social Development and Human Security with the aim to provide information on significant outcome of implementing activities or services throughout the year 2009. The outcome was in connection with the 3 strategies of the Ministry of Social Development and Human Security: Strategy 1 - Providing social welfare development and livelihood security; Strategy 2 - Enhancing the moving force for social development and the prevention and solving of social problems; Strategy 3 - Strengthening and creating people participation. The report also illustrates the outcome of implementing the Department's Action Plan for 2009 covering 4 strategic issues: developing the models and methods of social welfare service providing for the target groups, building the capacity of the target groups in making a living, enhancing the potential of older persons in making use of their lifelong experience and wisdom and promoting the networking of social development and welfare organizations. Other details included in the report are the financial report, the outcome of implementing activities according to the Performance Agreement, the Public Information Act of B.E. 2550 (2007) and some key missions/projects implemented in the fiscal year 2009.

I do hope that this annual report will be a source of useful information for agencies in both public and private sectors, students and the general public with regard to our duties and the results of implementing various projects and rendering services during the year 2009. The information can also be used for the formulation of guidelines of how to provide social development and welfare services that respond to the nature of problems and the way of life in each local community or area with all sectors within society are encouraged to be involved.

(Mrs. Panita Kambhu)

Total	5,043.9279	100.00

Part II

*The Outcome of Activity/Project/Program
Implementation by DSDW* **2009**

Part II The Outcome of Activity/Project/Program Implementation by DSDW

2.1 The Outcome of Implementing Activities/Projects/Programs by the Department of Social Development and Welfare According to the Performance Agreement in the Fiscal Year 2009

An evaluation of the Department's performance in the fiscal year 2009 conducted by the Office of the Public Sector Development Commission revealed that, on the whole, it got 3.9380 marks out of 5. The results can be broken down into the following dimensions:

Dimension 1 Effectiveness of Activities/Projects/Programs as Compared to the Action Plan

To reach the goal of this particular dimension, 6 common indicators were developed by the Ministry of Social Development and Human Security to be used by all organizations that are under the Ministry. Each one of them was assigned to be the host agency for an indicator or a number of indicators. Taking all indicators into consideration, the Department got 2.5871 marks out of 5. As for the 5 indicators under the Department's responsibility as being the host agency, it got a total of 4.0715 marks out of 5.

For this dimension, the Department got the overall score of 3.3969.

Dimension 2 Quality of Services

To reach the goal of this particular dimension, the Department made an attempt to improve the quality of its services by providing opportunities for the general public to be involved in sharing views/comments, the actual improvement of services and the follow-up of services provided for the general public by its bureaus and divisions.

In addition to that, measuring the satisfaction of the clients was also done by the National Statistic Office for 3 services/activities, namely access to services and opportunity for older persons to participate in social activities, promotion and support for private-run child care centers and vocational training for women. The overall satisfaction was 86.11%.

For this dimension, the Department got the overall score of 3.9684.

Dimension 3 Efficiency of Activities/Projects/programs

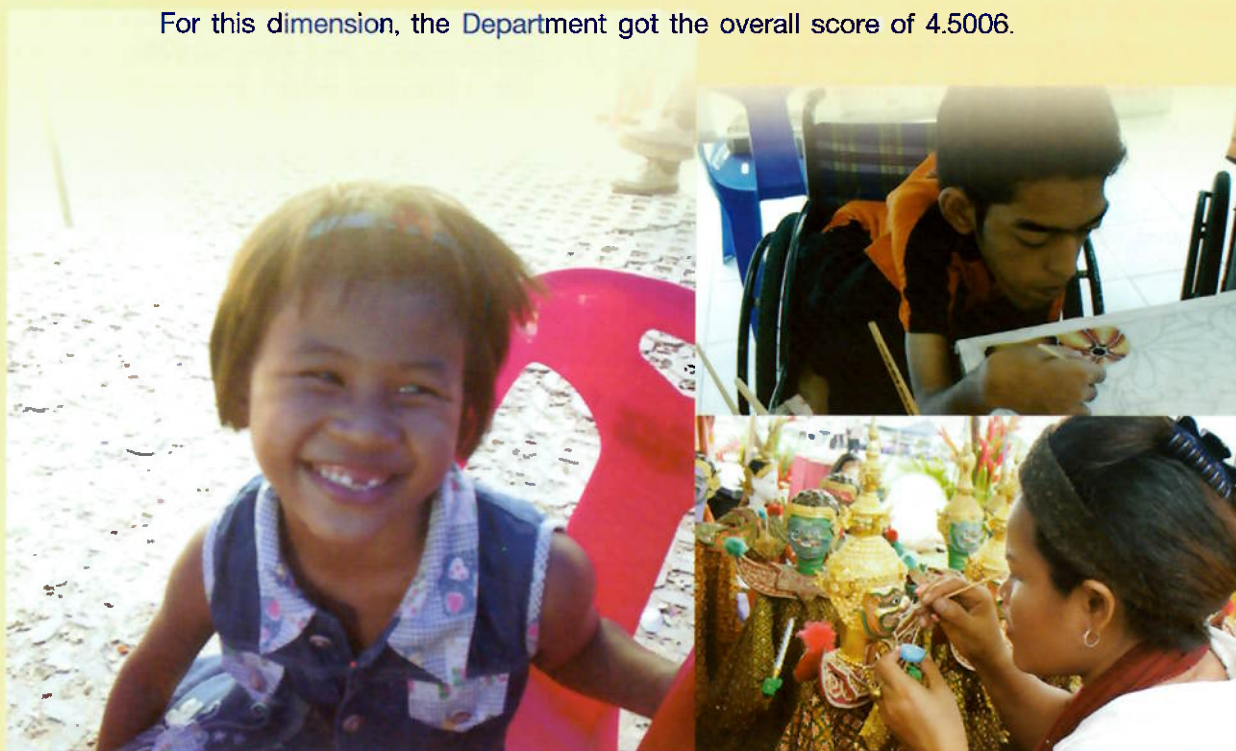

To reach the goal of this particular dimension, focus of the Department was on the proper management of budget especially the disbursement of budget to proceed according to the plan. On the category of investment, the disbursement was 79.32% because the construction of the Department's new building did not proceed according to the planned schedule. A continued effort has been made to reduce electricity and energy consumption. When compared to the standard index, the Department could save the electricity and energy consumption and got a total of 4.496 marks. Detailed unit costs were prepared to serve as references for finding ways and means of increasing the Department's efficiency when it concerned the implementation of activities/projects/programs for fiscal year 2010. As for the provision of services for the general public, the Department maintained the standard concerning time spent on processing 5 services. The process of providing day care service for children with visual impairment - a model for the promotion of early childhood development developed by Nonthaburi Home for Mentally Disabled Babies was submitted to the Office of Public Sector Development Commission and subsequently awarded a consolation prize in the category of an innovative service.

For this dimension, the Department got the overall score of 4.5700.

Dimension 4 Organization Development

The Department used the quality management criteria for the public sector (which was the tool for developing the quality of management in an organization in order to be up to standard) as a framework for self-assessment and a standard for follow-up and evaluation of the Department's management for the purpose of improving and upgrading the quality of its management. Several indicators were incorporated including knowledge management, information technology management, risk management, transfer of knowledge about indicators and aims from an organization level to an individual level, development of a human resource management system.

For this dimension, the Department got the overall score of 4.5006.

A Table Summarizing the Results of Implementing Activities/Projects/Programs
According to the Performance Agreement in Fiscal Year 2009 by The Department of
Social Development and Welfare, Ministry of Social Development and Human Security
(12-month period)

Indicator	Weight (%)	Criteria Score					Results

Total									3.9380

2.2 The Results of Activities/Projects/Programs Implemented by the Department of Social Development and Welfare under the Action Plan for the Fiscal Year 2009

The activities/projects/programs implemented by the Department of Social Development and Welfare under the 4-year Action Plan (2008-2011) for the Fiscal Year 2009 bear the following results which are classified according to the Department's 4 strategic issues:

Strategic Issue 1 Developing the models and methods of social welfare service providing for the target groups

To promote the strategic issue of strengthening social protection, the Department of Social Development and Welfare has adopted the strategy to develop the models and methods of social welfare service providing for the target groups under the strategy to promote the development of social welfare service providing models and methods for the target groups. The following outputs/activities that linked to the strategic issue were achieved.

Strategic guideline

Promoting the development of social welfare service providing models and methods for the target groups

(1.1) **Output:** The target population who were provided with social welfare services

(1.2) **Output against target:**

The output was the result of implementing one main activity: developing the system, model and standard of service providing for each target group. The overall target of the output can be

broken down into 3 items with 3 subsequent results of which the details are as follows:

1) Support given to put the standard of providing social welfare services for the target groups into actual practice in institutions and communities by giving advice on evaluation report writing (SAR) and conducting self-assessment(SAR) and evaluation;

2) Follow-up and evaluation of the output to improve the provision of social welfare services to be up to standard;

3) Networking management system development for the district-level community welfare funds.

(1.3) **Outcome against target:**

Organizations in the forms of institutions and communities adopted the models of providing standard social welfare services and extended the coverage in the manner that was consistent and suitable with services for different target groups.

Strategic Issue 2 Building the capacity of the target population in making a living

The strategic guidelines adopted by the Department of Social Development and Welfare to promote strategic issue 2 were to build the capacity of the target population in making a living under the strategies to increase knowledge and suitable environment for children and youth, to promote and provide social welfare services for the target groups and to strengthen the prevention and welfare protection for persons who are affected by social problems and prone to risks.

Strategic guideline 1

Increasing knowledge and suitable family environment for children and youth

1.1 Output Children and youth whose knowledge and suitable family environment had been increased.

1.2 Output against target:

The output was the result of implementing 6 main activities: strengthening social immunization for children and families, strengthening the community-based child care process, promoting and giving support to ensure that children will be provided with proper care suitable with their age, promoting and supporting the placement of children in adoptive/foster families, promoting and supporting activities

under the Bond of Family Love Project and promoting and supporting activities under the Miracle of Life Project. The overall target was 313,996 persons and the actual output was 462,991 persons or 147.45% of the set target. The detailed activities are as follows:

Key Activity 1 Strengthening social immunization for children and families

- This had been implemented by increasing awareness among families and communities with regard to child rearing and child development, giving support to communities to set up suitable learning and recreation centers for children and support for the organizing of activities that enhance child development in the learning centers i.e. activities relating to creative arts/music/sports, training for families/ promotion of better child IQ and EQ through the use of communication media/tools for child development and morals. In 2009, there were 20,469 children and youth who participated in activities and were developed within suitable environment. When compared to the set target of 16,800 children and youth, the actual output was 20,469 children and youth or 121.83% of the set target.

Key Activity 2 Strengthening the community-based child care process - In so doing, communities were encouraged to organize activities that would enhance on-going child development in the learning centers. The organizing of activities was also extended to other areas in the districts. The overall target of this particular key activity was 14,350 children and youth who participated in activities and the actual output in 2009 was 17,469 children and youth or 121.73 % of the set target.

Key Activity 3 Promoting and giving support to ensure that children will be provided with proper care suitable with their age - In 2009, the overall target was 11,770 persons and the actual output was 15,533 persons or 131.97 % of the set target. The detailed activities are as follows:

3.1 Provision of knowledge and skills for the organizers of early childhood care and development activities, parents or guardians of children who were cared for by private child care / child welfare centers totally 11,836 persons;

3.2 Promotion of better quality of services by private child care / child welfare centers through provision of communication media for enhancing child development totally 3,697 persons.

Key Activity 4 Promoting and supporting the placement of children in adoptive / foster

families - Focus was on children who were no longer able to live with their families or those who were under institutional care of welfare homes. These children were placed in new families to ensure that they would be properly brought up and provided with warm love and care by adoptive / foster families. The overall target was 1,725 children and the actual output was 1,725 children or 100 % of the set target.

Key Activity 5 Promoting and supporting activities under the Project to Strengthen the Tie of Three Generations and Weave the Bond of Family Love - The overall target was 258,551 persons and the actual output was 396,870 persons or 153.50 % of the set target. The details of this particular key activity are as follows:

5.1 Promotion and support had been given to the implementation of activities under the Project to Strengthen the Tie of Three Generations and Weave the Bond of Family Love covering a total of 130,597 persons. The details are as follows:

5.1.1 Activities carried out by the Sritaweerak Center, which were participated by a total of 24,298 persons, included provision of social welfare services for older persons and families i.e. activities that promoted good health and better nutrition, arts, national culture and tradition, entertainment, recreation, religion and social welfare services;

5.1.2 Activities by Dipangkorn Rasmijoti Child Development Center, which were provided for a total of 2,762 children, included those relating to the promotion of a healthy child growth at each level of age group i.e. a group of very young children (1-2 years old), a group of preschool children (2-3 years old) such as activities that enhanced child development intellectually, emotionally and socially;

5.1.3 Activities under the Project on Parents' Story Telling, Reading and Playing with their Children which training was organized to stimulate ideas about child brain development and to promote the role of parents in such development by reading-telling stories and playing with children;

5.1.4 Activities, with a total of 60 participants, carried out in areas under the Royal Initiative Projects where the outcomes/results of the Project to Strengthen the Tie of Three Generations and Weave the Bond of Family Love were further extended covering the promotion and provision of social welfare services for children and youth, older persons and families i.e. repair of child development centers within the project areas, sports grounds and service centers for older persons; organizing of training to provide knowledge and enable family members to become well-prepared and activities that would strengthen the family institution;

5.1.5 Activities, with a total of 626 participants, carried out under the Project on Community-based Social Service Providing for Older Persons, Persons with Disabilities and the

Destitute by means of group home and home care approaches which included data collecting and analyzing, provision of knowledge and building of a common learning process among local networks, strengthening of the capacity of care takers and families in caring for older persons, persons with disabilities and the destitute, building of a common learning process with regard to the performance by government officials and local networks, promotion and building of a family and community process in taking care of older persons, persons with disabilities and the destitute and supervision work to follow up and see how efficient services for the target groups were;

5.1.6 Development of a baseline data system for the target groups and families in areas under the Project to Strengthen the Tie of Three Generations and Weave the Bond of Family Love which aimed to verify data and prepare reports indicating the conditions and better quality of life of project members in 76 provinces;

5.1.7 Activities under the Project to Strengthen the Tie of Three Generations and Weave the Bond of Family Love, with a total of 200,273 participants, which involved the organizing of a family day, road show activities and a celebration to mark the 3rd anniversary of the Project.

5.2 Activities which were carried out by the Centers for Strengthening the Tie of Three Generations and Weaving the Bond of Family Love are as follows:

5.2.1 Activities by the Centers for a total of 37,651 persons which included a survey to obtain information about communities and families, maintenance of buildings and landscapes, organizing of social welfare activities i.e. recreation, promotion of better hygienic and health care, occupational promotion, cultural and religious activities, promotion of lifelong learning;

5.2.2 Activities by the learning centers under the Centers for Strengthening the Tie of Three Generations and Weaving the Bond of Family Love

Key Activity 6 Promoting and supporting activities under the Miracle of Life Project - Under the project, the potential of children was sought and opportunities were provided for them to show their outstanding talent and skills. Other activities included promotion of a process that would encourage young people to form themselves into groups to do voluntary work and participation of project personnel in international child-related conferences. The overall target was 10,800 persons and the actual output was 10,925 persons or 101.16 % of the set target.

1.3 Outcome against target :

Children and youth developed a healthy growth suitable with their age levels. They had knowledge, developed their potential physically,

mentally, socially, emotionally and were capable of adjusting themselves with surrounding environment.

Strategic guideline 2

Promoting and providing social welfare services for the target groups

2.1 Output: The target groups who were provided with social welfare services

2.2 Output against target:

The output was the result of implementing 3 main activities: providing institution-based welfare services, providing community-based welfare services and providing social work and social welfare services relating to HIV/AIDS. The overall target was 544,432 persons and the actual output was 878,365 persons or 161.34% of the set target. The detailed activities are as follows:

Key Activity 1 Providing institution-based welfare services - The overall target was 17,172 persons and the actual output was 21,224 persons or 123.60% of the set target. The details of this key activity are as follows:

1. Institution-based welfare services were provided for children and youth which covered provision of services and facilities in such institutions as reception homes, residential homes, child welfare protection homes and vocational training centers, child development and rehabilitation centers for a total of 7,751 persons. Services were available in several forms including:

1.1 Welfare services were provided in 25 residential homes, reception homes, child welfare protection homes and vocational training centers for totally 7,619 children and youth from new born babies to 18 years old. Services available included the provision of 4 basic necessities as well as child and youth development in all aspects to prepare them for reintegration with their families and society.

1.2 Welfare services were provided in 4 child development and rehabilitation centers for a total of 132 children and youth both boys and girls from 6 - 18 years old who needed special medical treatment and rehabilitation services i.e. children with emotional/mental problems, aggressive behavior, mental health problems, tendencies to commit suicide or hurting themselves. 3.2.2 Child welfare assistance was provided in the form of cash for a total of 2,133 children who were infected or affected by HIV/AIDS to ease their problems, enable them to live in families and communities without being referred to be under institutional care.

3.2.3 Family welfare assistance was provided in the form of cash for a total of 12,728 persons who were infected or affected by HIV/AIDS and their families to ease their problems and enable them to remain with their families.

3.3 Action was taken for the prevention of HIV/AIDS by providing knowledge in families and communities for a total of 60 persons who were in the high-risk group.

2.3 Outcome against target:

The target population which were the disadvantaged were provided with assistance such that they could lead their life within the limit of their financial capability and had access to basic social services above the standard criteria that had been set.

Strategic guideline 3

Building and developing the capacity of the target population in making a living

3.1 Output The target groups who were provided with knowledge and increased their potential

3.2 Output against target

The output was the result of implementing 5 main activities: building and developing the capacity of highland communities, building and developing the capacity of specific areas, promoting and supporting integrated social welfare service providing at field level, supporting the organizing of activities that strengthened unity in provinces along the southern borders, promoting and supporting the work of the participatory social service centers. There were totally 979,904 persons who benefited from the implementation of activities or 99.35 % of the set target of 986,301 persons. The details are as follows:

Key Activity 1 Building and developing the capacity of highland communities -There were totally 554,607 persons who benefited from the implementation of activities or 99.79 % of the set target of 555,225 persons. The details are as follows:

1.1 The capacity of a total of 538,336 hill tribes living in the highlands was built and developed through the implementation of such activities as the preparation of village development plans, basic infrastructure development, support given to education and occupational development, the provision of public health services, the promotion of employment and income generating activities and the provision of assistance for persons in distress.

1.2 The Buddhist Mission Project was promoted by supporting activities carried out by 300 monks living in 150 ashrams located in 14 northern and central provinces. The aims were to follow and make use of the teaching of the Lord Buddha as an instrument to promote the moral development of the highland population and to serve as networks of social welfare and development service providing in the highlands. The knowledge and skills relating to social welfare

service providing of Buddhist monks working in the project areas have been increased.

1.3 Support was given to the Royal Initiated Projects implemented in 7 northern provinces of Chiang Mai, Chiang Rai, Mae Hong Son, Lampoon, Payao, Kamphaeng Phet and Nan. Project activities included basic infrastructure development, training for highland population relating to farm and non-farm activities as well as social welfare services, promotion and support in the area of agriculture and welfare services for poor hill tribe families to increase the potential of the highlands and the opportunity of the population to be well-prepared for development and be able to make a living on a sustainable and self-sufficiency basis and to promote the conservation of natural resources and environment within the highlands. There were totally 4,615 hill tribes who benefited from the projects.

1.4 The highland community economy was promoted in the northern and central areas. The highland population were provided with

knowledge and standard services through various training courses that were designed and conducted in response to the specific needs of the population in each area. As a result, they were equipped with knowledge and skills in other income-generating activities apart from their main economic activities. These activities included, for example, cloth and rattan weaving, making of silverware products and group formation for ecotourism services. There were totally 2,515 hill tribes who were involved and benefited from the activities.

1.5 Capacity building to pursue highland income-generating activities has been promoted by organizing meetings with local authorities/ organizations to select the target groups and conduct vocational training. There were totally 6,000 hill tribes who were involved and benefited.

1.6 As for the promotion of security in communities located along the borders, activities that had been carried out included the organizing of village meetings to increase better understanding about the government policy, the preparation of village development plans, the formulation of youth groups for social development to serve as networks for assistance to be further provided for people facing problems.

Key Activity 2 Building and developing the capacity of specific areas - Activities that had been implemented were involved with the land management, the development in self-help land settlements covering the occupational promotion and the provision of basic infrastructure. There were totally 217,316 persons who benefited from the implementation of activities or 100 % of the set target of 217,316 persons.

Key Activity 3 Promoting and supporting integrated social welfare service providing at field level - Activities which had been implemented in 75 districts of 75 provinces included the organizing of thought-provoking training for personnel of tambon (sub-district) administrative organizations, workshops, people forums, the support for social welfare activities and the producing of learning kits. Activities covered a total of 15,000 persons or 100 % of the set target of 15,000 persons.

Key Activity 4 Supporting the organizing of activities that strengthened unity in the provinces along the southern border - Activities that had been carried out included leadership promotion, the organizing of local/village forum, employment promotion and vocational training, infrastructure development, the promotion of child and youth learning, cooperation, religious, cultural, recreation and sports activities. There were a total of 8,760 persons who benefited from the activities or services or 100 % of the set target of 8,760 persons.

Key Activity 5 Promoting and supporting the work of the participatory social service centers - Activities included the organizing of forums where the potential of communities could be identified, thought-provoking forums, support for community meetings to select the centers' committee members and support for activities of the centers. There were 190,000 persons who were involved in activities or 100 % of the set target of 190,000 persons. The details are as follows:

5.1 A total of 170,890 persons were involved in activities organized by social service centers in new areas. Among these, 14,932

persons were in 12 areas within Bangkok and 155,958 were in other 94 local areas

5.2 A total of 13,331 persons participated in activities to follow up the outcome of service providing by the social service centers in 8 pilot provinces.

3.3 Outcome against target

The target groups within the target areas could make a living, develop financial security for their families and be provided with basic infrastructure services to build the capacity for themselves, their families, communities and the population in nearby communities. In addition to that, the process of people participation has been developed at local level.

4.1 Output The target groups were provided with knowledge and occupational development.

4.2 Output against target

The output was the result of implementing 3 main activities: providing knowledge and occupational development in institutions; organizing vocational training and developing the skills of group formation and; promoting and implementing social development based on the philosophy of sufficiency economy. There were

totally 73,064 persons who benefited from the implementation of activities or 117.01 % of the set target of 62,400 persons. The details are as follows:

Key Activity 1 Providing knowledge and occupational development in institutions -Vocational training was organized for women and persons with disabilities in residential homes. The total number of persons provided with services was 6,985 or 156.44 % of the set target of 4,465 persons. The details are as follows:

1.1 Vocational training was organized for women in 8 welfare and vocational training centers for women. A total of 5,808 women and young girls who were poor, faced social problems, deprived of opportunity to pursue higher education and unemployed were provided with services relating to vocational training, vocational skill development and a better quality of life. The aims were to further enhance their status and to increase their employment and income opportunities to support themselves and their families.

1.2 Vocational training was provided for persons with disabilities in 8 vocational training centers for persons with disabilities. A total of 1,177 persons with disabilities were provided with vocational training and vocational skill development to enable them to make a living, earn income and eventually become self-reliant.

Key Activity 2 Organizing vocational training and developing group formation skills - Vocational training was organized and the skills of group formation were developed for the target groups by encouraging and supporting the effort to set up groups and providing knowledge relating to occupational development with the aim to open up opportunities for more employment and income. There were totally 41,900 persons who benefited from the provision of services or 100 % of the set target of 41,900 persons. The details are as follows:

2.1 Vocational training under the Building New Life for Rural Women - Training was organized nationwide for rural women and people in general who lacked opportunity to pursue higher education, those who were laid off or unemployed or poor to equip them with knowledge in response to local market demand. The training courses included such subjects as blanket making, traditional cloth weaving, processing of textile products etc. The forms of service providing were as follows:

2.1.1 The 88-day vocational skill training was organized and the 120-day group formation skills were developed for income-generating activities for a total of 15,000 participants.

2.1.2 Support was given to the 110-day actual practice to develop group formation and management skills for income-generating activities

of 2,000 ex-trainees who underwent vocational training.

2.2 Promotion of short-term vocational skill development - Vocational knowledge and skills of 20,900 school-age children and youth were enhanced to provide them with employment opportunities and alternatives, enable them to earn supplementary income for their families and

2.3 Capacity building - The potential of the target groups relating to occupations was developed. A total of 4,000 persons who were unemployed were provided with training to develop their vocational skills that responded to their needs and could be further used for generating employment and income in the fields of agriculture, food processing, weaving and making of art, handicraft and embroidery products.

Key Activity 3 Promoting and implementing social development based on the philosophy of sufficiency economy - There were totally 24,179 persons who benefited from activities that were implemented or 150.41 % of the set target of 16,075 persons. The details are as follows:

3.1 Social development and promotion was provided along the line of sufficiency economy for a total of 4,735 persons. The aim was to provide knowledge relating to occupational development based on the philosophy of sufficiency economy, a campaign to promote the use of vetiver grass and vetiver grass development and pilot villages for sufficiency economy.

3.2 The Coordinating Center for the Royal Initiative Projects carried out the promotion and development activities for a total of 6,926 persons

along the line of sufficiency.

3.3 Sufficiency economy was piloted by organizing meetings to integrate the work of 5 partners involved, preparing the people for their participation, providing a forum where key concepts and understanding could be further enhanced, developing the capacity of community leaders to extend the results obtained from using the recommended techniques and supporting activities that contributed to or proceeded consistently with the philosophy of sufficiency economy. There were totally 12,508 persons who were involved.

3.4 An increase of chemical-free rice production output was promoted by organizing training for 495 persons to provide knowledge about a complete cycle of chemical-free rice production.

3.5 Growing replacement crops (jatropha) as alternative sources of energy was promoted by organizing training for 1,780 persons to provide knowledge about a complete cycle of jatropha production.

4.3 Outcome against target

Vocational skills of the disadvantaged women, persons with disabilities and the target groups in communities were promoted and developed resulting in better income to support themselves and their families on the basis of sufficiency economy.

Strategic guideline 4

Building the capacity to prevent and protect persons affected by social problems and risks

4.1 Output The target population who were provided with welfare protection and prevention against human trafficking

4.2 Output against target

The output was the result of implementing 2 main activities: preventing and dealing with the problem of human trafficking and rehabilitating and building the capacity of the destitute to protect them from being lured. There were totally 118,940 persons who benefited from the implementation of activities or 113.41 % of the set target of 104,880 persons. The details are as follows:

Key Activity 1 Preventing and dealing with the problem of human trafficking - Activities were carried out and involved a total of 114,975 persons or 112.30 % of the set target of 102,380 persons. The detailed project implementation is as follows:

1.1 Coordination and organizing of training/ workshop/seminar to prevent the problem of human trafficking for a total of 6,810 persons

1.2 Training to provide knowledge that would safeguard the target groups against human trafficking - This was done by organizing activities that would provide knowledge and disseminate information to the high-risk youth on how to prevent themselves from being lured into sex trade and to students, parents or guardians, community leaders and the general public on how to prevent themselves from being lured into the vicious cycle of human trafficking. The aims were to prevent the problem of prostitution especially in the high-risk youth group and to encourage people within society to be involved in preventing the problem. There were totally 101,013 participants who participated in the training.

1.3 Assistance for 383 victims of human trafficking who were Thais, non-Thais and persons whose nationality could not be identified

1.4 Capacity building for the target group totally 6,586 persons to prevent them from being lured and becoming victims of human trafficking by organizing short-term vocational training courses to open up employment and income opportunities so that they could support themselves financially and be able to live with their families

1.5 Provision of services by welfare protection and occupational development centers for men for a total of 183 persons with the aim to assist men who were victims of human trafficking by providing assistance, medical treatment, rehabilitation and occupational development

1.6 Maintaining of inter-country cooperation with 14 agencies for the prevention, assistance and welfare protection of victims of human trafficking

1.7 Support given to 6 places to promote learning of how to prevent, assist and protect victims of human trafficking

Key Activity 2 Rehabilitating and building the capacity of the destitute or homeless to protect them from being lured - There were totally 3,965 persons who benefited from the implementation of activities or 158.60 % of the set target of 2,500 persons. The details are as follows:

2.1 A project on rehabilitating and developing the potential of 2,000 persons who were the destitute to prevent them from being lured by organizing vocational training and training that would provide them with more knowledge and better understanding with regards to the rights and opportunities to make a living such that they were prepared to return and reintegrate into their families and communities;

2.2 Activities involving with the provision of assistance and rehabilitation services for a

total of 1,965 persons carried out by Baan Mitmaitri in 4 sites;

2.3 A study on one subject covering the identifying of target groups and needs of the disadvantaged.

4.3 Outcome against target

The high-risk groups and victims of human trafficking were provided with medical treatment and rehabilitation services made available through various project activities. They gained knowledge about how to prevent the problem and be able to pass on the knowledge to their families and communities such that they became more aware of the problem of human trafficking.

5.1 Output The target population who were provided with welfare protection and capacity building activities to enable them to become strong family members

5.2 Output against target

The output was the result of implementing 2 main activities: providing rehabilitation and problem-solving services for victims of domestic violence and setting up an operations center for domestic violence prevention. There were totally 23,066 persons who benefited from the implementation of activities or 136.40 % of the set target of 16,911 persons. The details are as follows:

Key Activity 1 Providing rehabilitation and problem-solving services for victims of domestic violence - Activities were carried out and involved the provision of services in 76 shelters for children and families located nationwide. These services included temporary accommodation and physical as well as psychological rehabilitation for a total of 8,990 persons who faced social and immediate problems to enable them to lead a normal life within society.

Key Activity 2 Setting up an operations center for domestic violence prevention - Services were available for a total of 14,076 persons.

5.3 Outcome against target

The victims of domestic violence were provided with medical treatment, rehabilitation and welfare protection services to the extent that they could eventually reintegrate into families and communities.

Strategic Issue 3 Enhancing the potential of older persons in making use of their lifelong experience and wisdom

A strategic guideline was adopted by the Department of Social Development and Welfare to promote strategic issue 3 which involved enhancing the potential of older persons in making use of their lifelong experience and wisdom which was under the strategy to promote the transfer of lifelong experience and wisdom by older persons to younger generation. The output/activities that linked to this strategic issue are as follows:

Strategic guideline

Promoting the transfer of lifelong experience and wisdom by older persons to younger generation

1.1 Output: The target population who were provided with social welfare services for older persons

1.1.1 Output against target

The output was the result of implementing one main activity: providing services in social welfare development centers for older persons. There were totally 55,814 persons who benefited from services or activities provided for them or 100.33 % of the set target of 51,630 persons. The details are as follows:

Key Activity 1 Providing services in 12 social welfare development centers for older persons - Services were made available in each center in the forms of various sub-centers i.e. a welfare-related IT center, a training and development center, a learning center, an institutional-based social welfare service providing center for older persons, a counseling and referral center. The details are as follows:

1) Provision of care and rehabilitation services for a better quality of life of a total of 1,535 persons

2) Capacity building and development for a total of 54,280 older persons

1.1.2 Outcome against target

Older persons were provided with services relating to social welfare, news and information as well as social activities. The model of social welfare service providing was also introduced to networks resulting in more participation in the provision of social welfare services for older persons.

1.2 Output: The older persons who had opportunity to participate in social activities.

1.2.1 Output against target

The output was the result from implementing 2 main activities: promoting the organizing of social activities for older persons and promoting the use of older persons' wisdom. There were totally 42,625 persons who were involved in activities or 115.05 % of the set target of 37,050 persons. The details are as follows:

Key Activity 1 Promoting the organizing of social activities for older persons - There were totally 33,862 persons who were involved in the activity or 112.69 % of the set target of 30,050 persons. The details of activity are as follows:

1.1 Community-based preparation for older persons prior to entering the age of retirement - The aim was to enable older persons in communities to be well-prepared before the age of 60 by providing them with more knowledge and better understanding about changes that a human being has to go through physically, mentally, emotionally and socially. Such knowledge should help older persons to adjust their attitude and relationship with others and be able to maintain the state of being well-informed older person that suited them and the changing situation of the present society.

1.2 The organizing of activities to strengthen the relationship among family members - A total of 13,204 older persons and family members had participated in recreation activities that strengthened their relationship. Each family had a chance to gain knowledge that would increase better understanding among members resulting in the ability of people who might be from different generations to adjust and live together in one happy family.

1.3 Promotion of community participation in building or improving the conditions of older persons' houses - These included household improvements and repairs, adjustment of surrounding environment such that it gave an older person a greater access to each and every corner of the house and maintenance of the places where activities were held for older persons. All these activities aimed towards enabling older persons to live in safe and suitable

environment. In 2009, houses of older persons were repaired and places for organizing activities for older persons were improved. There were a total of 9,030 persons who were involved.

1.4 Services provided by the learning center for social welfare service providing for older persons at Muang Mai-Bang Plee.

Key Activity 2 Promoting the use of older persons' wisdom - There were totally 8,763 persons who were involved in the activity or 125.16 % of the set target of 7,000 persons. The details of activity are as follows:

2.1 The value of spending on costs that would benefit welfare for older persons was promoted. The aim was to enable older persons to gain knowledge about financial management and the benefit from maintaining the value of reducing the expenses and increasing income to be further accumulated for their own welfare in the future. There were totally 5,126 persons who participated in the activity.

2.2 Support was given to enhance the ability of older persons to make use of their wisdom for employment and income generation. The aim was to provide the opportunity for older persons to spend their time productively in passing on their knowledge, experience and wisdom to communities. There were totally 2,992 persons who participated in the activity.

2.3 A total of 645 volunteers were encouraged to offer care service to older persons.

1.2.2 Outcome against target

The capacity of older persons was built socially and economically. They had a chance to use their knowledge, experience and wisdom to benefit them and their society regarding income for themselves, their families and communities.

Strategic Issue 5 Developing the system of social development and welfare networking

The strategic guideline was adopted by the Department of Social Development and Welfare to promote strategic issue 5 which involved developing the system of social development and welfare networking which was under the strategy to promote and support participation of local communities and local areas in social activities. The outputs/activities that linked to this strategic issue are as follows:

Strategic guideline

Promoting and supporting participation by local areas and communities in social activities

1.1 Output The capacity of networks was built and developed.

1.2 Output against target

The output was the result of implementing 3 main activities: strengthening networks at tambon (sub-district) level; enhancing the working mechanism among networks and; monitoring and strengthening the roles and performances of networks. There were totally 2,763 networks that were involved in activities or 218.76 % of the set target of 1,263 networks. The details are as follows:

Key Activity 1 Strengthening networks at tambon (sub-district) level - The aim was to promote and encourage people in the target areas to form themselves into social development organizations and be involved in the provision of social welfare. In so doing, systematic linkages with local administrative organizations were maintained. In addition, local population had

greater access to social development and welfare services which were available more thoroughly to the extent that the social development and human security networks at sub-district level were created according to the set target covering a total of 600 persons.

Key Activity 2 Enhancing the working mechanism among networks - The activity involved developing a mechanism for coordinating, maintaining linkages, promoting the integration of services and exchange of experiences among social development and human security networks at sub-district level. It also involved support given to social development and human security networks at tambon or sub-district level to strengthen the capacity of networks and enable them to perform continuously. The working mechanism among networks at sub-district level had been enhanced covering 64 networks in new districts and social development and human security networks in 999 old districts making a total of 174 districts.

Key Activity 3 Monitoring and strengthening the roles and performances of networks - The activity involved the monitoring and strengthening of the roles of social development and human security networks at tambon or sub-district level such that they could form the relationship both horizontally and vertically, promote linkages both internally and externally and build the capacity to proceed continuously with activities which were related to social development and welfare and accepted by local communities/ areas. The role of a total of 2,000 networks had been strengthened.

1.3 Outcome against target

Strengthening the networks at Tambon-level was seen as being the ways and means to build the capacity to support the provision of social

welfare and development in the target areas to proceed more effectively. It is also seen as a driving force that would guarantee that plans relating to social development would be implemented in the target areas resulting in benefits gained by the target groups from creating and strengthening such networking whether seen from the greater access to various social welfare services or the problems faced by the population in the target areas were solved such that they eventually enjoyed a better quality of life and became self-reliant on a sustainable basis.

Part

*The Implementation of the Official Information Act
B.E. 2540 (1997) for The Department of Social Development
and Welfare in Fiscal Year*

2009

Activities implemented in Fiscal Year 2009 according to the Public Information Act B.E. 2540 (1997)

In the fiscal Year 2009, the Department of Social Development and Welfare implemented activities according to the Public Information Act B.E.2550 (2007) as follows:

1. A Public Information Committee of the Department of Social Development and Welfare was set up to be responsible for the supervision and implementation of activities by the Public Information Center, Department of Social Development and Welfare to proceed according to the Public Information Act B.E.2550 (2007).

2. The Public Information Center which was set up by the Department is located on the 2nd Floor of Building 3, Department of Social Development and Welfare. There is a guideboard which clearly shows the location of the Center. It is a place where information services are available to the general public i.e. provision of news and information, advice given to those who seek information services. A list or index of news and information has been improved to become more systematic so as to facilitate and develop a more convenient search for information.

3. The following public information-related activities were carried out by the Department of Social Development and Welfare:

3.1 Send information as specified in Article 7(1)(2)(3) to be published in the Royal Thai Government Gazette, Ordinary Version, Volume 121, Part 117 Ngor dated December 30, 2004;

3.2 Prepare data/information as specified in Article 7(1)(2)(3) and (4) which was kept in files classified by each type of information for the general public who visited the Public Information Center;

3.3 Provide information according to Article 9 which the general public could easily access (The information was kept in files classified by each group of information based on each pair of brackets under Article 9. Some information was disseminated through the website of the Department [www.dsdw.go.th]. There was a total of 455 persons who required for the information service);

3.4 Take action according to the Article 23(3) concerning personal information by making arrangements for the information to be published in the Royal Thai Government Gazette, ordinary version, Volume 121, Special Part 134 Ngor dated December 8, 2004.

4. Knowledge concerning the rights to access public information was disseminated as follows:

4.1 Information was disseminated through various media i.e. the journal of the Department of Social Development and Welfare, the direct contact with people in actual field visit to provide them with the Department's news and information, the organizing of exhibitions and the public relation campaign through community broadcasting.

4.2 Feedback was obtained from the general public regarding revealing public information through various channels i.e. starting a web-board to hear comments or suggestions from the general public, placing a suggestion box and making use of information obtained for management purpose with regard to whether or not public information should be revealed or information services should be provided for the general public.

5. A systematic management system has been developed with regard to revealing public information. Responsible officials were assigned in particular to ensure that the law relating to public information would be enforced in addition to particular attention and control that the Department's executives had unfailingly maintained to promote strict law enforcement i.e. organizing meetings to review the guidelines of how to implement activities as stated in the Public Information Act, ensuring that the knowledge concerning the Public Information Act B.E.2550 (2007) would be provided during seminars or training courses to ensure that the Department's personnel would be equipped with more knowledge, better understanding and capable of taking appropriate action.
